# the ART book

At some point in our lives, each of us has been an artist of some sort, whether it was finger painting in kindergarten or doodling on a piece of paper while bored at work or school. Of course, there are those who discover it is their talent and take it to another level, using art on a regular basis as a way of expressing themselves and ideas that appear in their minds. Whether it's pure fantasy, self portraits or landscapes; for the most part it's a way of releasing and relaxing. While it may never become a way of making a living, doing so it still fulfills a need from within.

Then there's the more rare case of those very few that actually make a living with their artwork. For some it may be commercial art or graphics and for others it could be something as simple as a t-shirt design or perhaps even greeting cards. There is no doubt that art is everywhere; it's never ending and the ultimate expression of one's soul. It has a way of bringing smiles, laughs and even tears. It's even changed how the world thinks or views things. Some of the greatest artists of all time weren't even recognized until after their deaths, yet the work they created lives on forever in museums and private collections around the world.

For the past three years Static Live Magazine has been lucky enough to feature many amazing talents in all shapes and mediums, each one unique and interesting in its own way. It's been more than an honor to show off all the wonderful types of styles and creations. As for me personally it's been an amazing journey in discovering so many talents and learning about how they got started and what drives them to be the best that they can when it comes to sharing their ideals and visions to the world.

I would like to personally thank all involved for sharing their work with us and have been a part of this special journey into the beautiful world of art.

*Sincerely,*

*Sean Impara

This is Steve Pavlovski of Liquid Light Lab seen here at Art Basel 2018 performing on an inflatable dome. Steve is easy to reach [stevepavlovski@hotmail.com](mailto:stevepavlovski@hotmail.com)

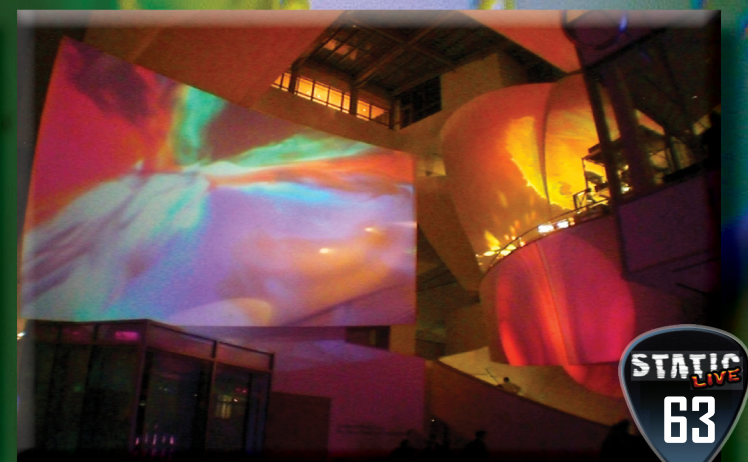

Steve is a perfect example of a dedicated light artist in his forties. He is very good at mixing techniques.

This is my wife Briged Smith performing a blow plate in 2017. Blow plates are one of our standards. You float colored oil on clear water and gently move it around with air.

pg 8 **VAUGHN BELAK** is a self taught independent artist/painter living in the Orlando/Central Florida area. He has been painting professionally for 10 years. His work is collected and shown internationally as well as regionally in both group and solo shows. Cities he shows regularly in are Orlando Fl, Atlanta Ga, New York Ny, Austin Tx and Los Angeles Ca.

pg10 **JOSH ROSEN** is owner and operator at The Hands That Make the Monsters in New Smyrna Beach, Florida.

pg11 **LOUIE MUNI** (Joe Muni) They can be found at the HUB on Canal in NSB, FL. "Our goal is to never buy a piece of wood and to this day 11 years later we still haven't. Each guitar that is made has a very special history to it and a story of where the wood came from. In this case it's much more than just art, it's playable art! Every guitar will not reach the gallery until it has been inspected for playability and is confirmed to rock!!"

pg12 **BARRY KITE** had a short career in the mid 1970's performing his spoken word poetry before segueing into his collage-style visual art for the next 40+ years. His return to this unique style of poetry not only opens up neglected avenues of expression, but the combination of word and image confronts him as a new art medium.

pg14 **HAROLD GARDE** is an American expressionist painter and the originator and namer of the Strappo technique.

pg16 **MARK HADLEY** who seems to be always smiling and joking around and has a very positive attitude about almost everything. Yet, when you look at his artwork it seems to take on a whole different and definitely darker tone.

pg17 **RYAN HANLY** is a man that practices an art form that has been dated back into the mid-1500s or perhaps even as far as the Egyptian times if you consider they mummified millions - yes, millions - of animals. Taxidermy is almost like being a mortician in that it involves dealing with death every day. While it's not very pretty work and it's definitely not for the squeamish or for people with weak stomachs, it's still something that's around us today and still can be very fascinating.

pg18 **GARY KROMAN** His work can be seen on the covers of many StaticLive magazines. His work is translated onto multiple merchandise such as shoes, bags, home goods, stationary and prints. All are available at his website [kromangallery.com](http://kromangallery.com)

pg20 **ISABEL BADEA** [www.Belinhastarr.com](http://www.Belinhastarr.com)

pg22 **PHILLIP BENNETT WALKER** is owner/artist at Phillip Bennett Walker and management at Royal Palm Village Wine & Tapas

pg23 **BARBARA SIMMONS** Lincensed massage therapist, Reiki practitioner at Mind Body of NSB, Florida and Owner at Barbara Simmons Photography

pg24 **DEKKER DREYER** Dekker is an artist working in film, virtual and augmented reality, illustration, and books. Entrepreneur and MovieMaker Magazines have called him a VR pioneer. His work connects technology, the supernatural, dreams and folklore; often through the lens of a contemporary or near-future world.

pg26 **DENISE VEZZA MAGGIORE** [StudioVezzaMaggiore.com](http://StudioVezzaMaggiore.com)  
"Being an Artist is not what I do, but who I am and how I approach life. Every new situation demands a creative approach for the best solution, and that comes from an unbridled imagination."

pg28 **SHERI ZANOSKY** Artistat Hub on Canal Studio NSB, FL.

pg29 **KEM MCNAIR** "I have been a digital artist since 1986 and painting nature media and shooting photos way before that. I have been using Photoshop for over 22 years. I can be contacted on Facebook and by email [kmcnair1@cfl.rr.com](mailto:kmcnair1@cfl.rr.com). See you at the beach!"

pg32 **DAN GUNDERSON** "I am drawn to bright primary and secondary colors for my palette. Plastic toys (such as McDonald's Happy Meal figures) are the foundation of my installations."

pg34 **JOHN 'CRUSHER' HEALY** A mixed media artist

pg36 **KATTY SMITH** sculptor artist at the HUB on Canal in NSB, FL.

pg38 **NICOLE GALLUCCIO** Art can be found at [www.nicolegalluccioart.com](http://www.nicolegalluccioart.com)

pg40 **ANDREW SWAN (BREYHS)** is a Delray

Beach based artist originally. He took up art in 2007 and works in three styles: Pointillism, Scribbelism, and Coloured Pencillism.

pg42 **KELCIE MCQUAID** 954.336.6617 - [KelcieMcQuaid.com](http://KelcieMcQuaid.com) - [KelcieMcQuaid@gmail.com](mailto:KelcieMcQuaid@gmail.com) - [Instagram.com/kelciemcquaid](https://www.instagram.com/kelciemcquaid) - [Facebook.com/KelcieMcQuaidArt](https://www.facebook.com/KelcieMcQuaidArt)

pg44 **JACK MITCHELL** Jack Mitchell was an American photographer. He photographed American artists, dancers, film and theatre performers, musicians and writers. His portraiture, lighting skill, and ability to capture dancers in what he termed "moving stills" made him one of the most important dance photographers of the 20th century.
